

# Early Years Foundation Stage

Our early year classes follow the Early Years Foundation Stage Framework where the children are able to take the lead in their own learning within a stimulating and inspiring learning environment.

All 7 key areas of the framework have equal importance in our curriculum Learning'. We effectively create a unique learning experience for each child focusing on what fascinates them and planning and teaching in the moment.

***“Look for the learning in their play, not the play in their learning.”*** Kirstine Beeley

Children have the opportunity to engage in daily phonic sessions, story-telling and child led activities throughout the day. A large amount of time is dedicated to child initiated learning where the children are free to explore both the inside and outside learning environments where they can seek and discover their own interests.

We encourage children to lead healthy lifestyle, participating in physical activities and eating healthy foods. The children have access to fresh fruit, vegetables and water throughout the day in our classes. They take responsibility for setting, tidying and washing up their cups and plates after they have finished.
