## Key Instant Recall Facts Recapping our Maths knowledge Autumn Term

## I know number bonds for all numbers to 20.

Children should know the following facts to support their understanding of maths. The aim is for them to recall these facts instantly.

| $2+9=11$ | $5+9=14$ |
| :--- | :--- |
| $3+8=11$ | $6+8=14$ |
| $4+7=11$ | $7+7=14$ |
| $5+6=11$ | $6+9=15$ |
| $3+9=12$ | $7+8=15$ |
| $4+8=12$ | $7+9=16$ |
| $5+7=12$ | $8+8=16$ |
| $6+6=12$ | $8+9=17$ |
| $4+9=13$ | $9+9=18$ |
| $5+8=13$ |  |
| $6+7=13$ |  |

Example of a fact family
$6+9=15$
$9+6=15$
$15-9=6$
$15-9=6$

Examples of other facts
$4+5=9$
$13+5=18$
$19-7=12$
$10-6=4$

## Key Vocabulary

What do I add to 5 to make 19?
What is 17 take away 6 ?
What is 13 less than 15 ?
How many more than 8 is 11 ?
What is the difference between 9 and 13?

Finding the difference is a tricky term for children to understand and needs lots of practise!

This list includes the most challenging facts but children will need to learn all number bonds for each number to 20 (e.g. $15+2=17$ ). This includes related subtraction facts (e.g. $17-2=15$ ).

If you feel secure in these facts, how can you apply them to other numbers? If you know $13+5=18$, do you know that $43+5=48$, or $53+15=68$ ?

## Top Tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Buy one get three free - If your child knows one fact (e.g. $8+5=13$ ), can they tell you the other three facts in the same fact family?

Use doubles and near doubles - If you know that $6+6=12$, how can you work out $6+7$ ? What about $5+7$ ?

Play games - There are missing number questions at https://www.topmarks.co.uk/maths-games/subtraction-grids See how many questions you can answer in just one minute.
