

Science Lesson Friday 22nd January

LO: To identify what a seed needs to germinate.

- [Seed Germination | #aumsum #kids #science #education #children - YouTube](#)
Watch this video to have a look in more detail how a seed germinates.
- Complete the worksheet 'Bean Growth Worksheet'. Cut and stick the pictures into the correct order.
- Plant your seed if you didn't manage to do it during the live lesson.
- Post pictures of how your seeds are germinating on our class blog.

No resources needed for next week but have your seed that you planted with you, as we will be looking at them during the live lesson.
