

'Figure me out' – an example

The number of letters in my first name:

Let's assume my name is Charlotte...I have, therefore, 9 letters in my name. So a calculation to give 9 could be:

$$4 + 5 =$$

$$21 - 12 =$$

$$3 \times 3 =$$

The number of letters in my last name:

Let's assume my name is Smith...I have, therefore, 5 letters in my name. So a calculation to give 5 could be:

$$1 + 4 =$$

$$2 \times 2 =$$

$$13 - 8 =$$

The number of letters in my teacher's name:

My name is Mrs Criddle...I have, therefore, 10 letters in my name. So a calculation to give 10 could be:

$$6 + 4 =$$

$$2 \times 5 =$$

$$40 \div 4 =$$

The day of the month of my birthday:

My birthday is on the 24th...I have, therefore, 24 for the answer. So a calculation to give 24 could be:

$$20 + 4 =$$

$$4 \times 6 =$$

$$48 \div 2 =$$

This is me:

My favourite number:

My favourite number changes...today I have chosen 6 for the answer. So a calculation to give 6 could be:

$$14 \div 2 + 3 - 4 =$$

$$2 \times 3 =$$

$$120 \div 20 =$$
